

AC[®] SADASH

SEED VARIETY INFORMATION

AC[®] Sadash is a high yielding and high quality awned, soft white spring wheat.

Key Features

- ◆ Similar grain yield & maturity to AC Andrew
- ◆ 0.5% lower protein than AC Andrew
- ◆ Excellent lodging resistance, stronger straw than AC Andrew
- ◆ Resistant to prevalent races of stripe rust and powdery mildew
- ◆ Moderately resistant to stem rust and loose smut

Technical Information

Alberta Seed Guide 2017
